

How Could Sunday School Teachers Help Children Experience God's Love?

Effective Tips from our GCAC Workers

- Come to the classroom a few minutes early to greet children and their parents
- Use praises, smiles, hugs or pats on backs to recognize children when they behave well
- Spend some talking/chatting time before or during lunch with the child who needs extra attentions
- Stop by the classroom to say hello to children when you are not on teaching duty
- Make a phone call or send an email to the child who has missed Sunday school
